

Coach Matt Doherty Speaking A/V Requirements

Audio Visual & Presentation Needs:

Below is a checklist that will ensure the best audience experience of Matt's program. Please share this list with your Meeting Planner and AV Contact Person. If you encounter a challenge with any of the following requests, please contact us right away so that we can address it in advance of the event.

- A wireless, lavalier microphone.
- Lighting can make or break an event! Please be sure there are no floodlights or house lights over/near the screen to ensure maximum brightness for the audience's viewing pleasure.
- Load Matt's Power Point onto your laptop and provide a remote for Matt to use to advance the slides.
- Large confidence monitor placed in front of the stage that mirrors the presentation, including the next slide.
- Please have a podium/lectern in the middle of the stage for Coach Doherty to place his notes and water.
- Bottled water.
- Matt's programs are very interactive and engaging, please try to fill the seats in the front of the room for energy.

Thanks for your assistance.
